

オウ イシン
王 一臻

WANG Yizhen

Master | Mechanical Engineering | Hasegawa Lab, The University of Tokyo

✉ wang1zhen97@gmail.com 📞 080-8008-2338 📍 Tokyo, Japan

🌐 blog.wang1zhen.com 🐙 github.com/wang1zhen 🌐 LinkedIn

Education

The University of Tokyo

Master, Mechanical Engineering, Hasegawa Lab

◦ Automatic Optimization of Pulsating Waveform for Drag Reduction in Experiment of Turbulent Pipe Flow

Master's thesis received the Award of Society of Automotive Engineers of Japan (JSAE)

Oct 2023 – Sep 2025

Tokyo, Japan

University of Melbourne

Master, Mechanical Engineering (Withdrawn)

◦ Investigation of energetic motions in rough-wall turbulent boundary layers

Jan 2019 – Dec 2019

Melbourne, Australia

Shanghai Jiao Tong University

Bachelor, Energy and Power Engineering; Minor in Musicology

◦ Dilution effects of DME and ethanol on methane flames

◦ Dynamic characteristics of hydrogen-cooled generator stator foundations

Sep 2014 – Sep 2018

Shanghai, China

Shanghai Experimental School

High School

Sep 2011 – Aug 2014

Shanghai, China

Work Experience

SOLIZE Partners

CAE Analysis Engineer

Apr 2026 – Present

Kanagawa, Japan

Skills

- **Mechanical Engineering**
Tools: SolidWorks, OpenFOAM, ANSYS
Coursework: Advanced Heat Transfer, Numerical Thermofluid Engineering, Advanced Fluid Engineering, Numerical Methods
- **Electrical Engineering**
Coursework: Circuit Theory, Visualization of PLC Control, Measurement Principles and Technologies, Instrumentation Concepts and System/Control Modeling
- **Machine Learning & Optimization**
Methods/Coursework: Bayesian Optimization, Brain-Inspired Information Processing Mechanics, Neuro Intelligence
- **Miscellaneous**
Programming: Python, MATLAB, C/C++, Emacs Lisp
Tools: Microsoft Office, $\text{\LaTeX}$
Systems: GNU/Linux, openWRT, BSD

Languages

- Mandarin Chinese: Native
- English: Native Level
- Japanese: JLPT N1 (Business Level)

Interests

- Classical Music: Amateur Violist
- PC DIY: Server Administrator
- Detective Novels and Science Fiction
